# Business of Regenerative Medicine Asia Pacific

Thursday 20th – Friday 21st October, 2022

## Student and Early Career Travel Grants

CCRM Australia with Convergence Science Network are organising a two-day specialised Symposium directed towards an Asia Pacific market and modelled on the successful Business of Regenerative Medicine held annually in North America. The 2022 symposium will be held in Victoria Australia.

### Key themes and benefits

The Symposium purpose is to share knowledge and learn from the past experiences of peers, entrepreneurs, service providers and biopharmas in the regenerative medicine sector. BRM Asia Pacific will focus on themes that support and accelerate the translation and commercialisation of regenerative medicine. Attendees will gain an appreciation of the complexities of commercialisation and market adoption. BRM Asia Pacific will also provide opportunities to network and foster commercial collaboration.

### Funding Available

CCRM Australia will fund 5 travel scholarships up to the value of \$750 per applicant to support registration, travel and accommodation costs for attendance at the symposium. The award can only cover actual costs incurred up to the total value of the award.

### Important Dates

1st August – Applications Open  
1st September – Applications close  
15th September – Awards Announced

### Eligibility

- PhD candidates and Post-Doctorate Research Fellows
- Based in Australia and affiliated with an Australian university or research institute
- Letter of support from supervisor

### Venue

This 2-day Symposium will be conducted at Bio21 Institute, located at 30 Flemington Rd, Parkville VIC 3052.
